Single source of reliable product data

DataKart is a repository of information on Indian retailed products with details of each attribute (ingredient, product image, MRP, net content, dimension etc). It enables brand owners to share accurate, trusted, and updated SKU data with retailers/e-tailers in a consistent, structured, and standardised manner, in real time.

DataKart also enables brand owners to efficiently assign and manage barcode numbers (GTINs-EAN/UPC), besides generating barcode images following GS1 standards.

DataKart provides foundational data for several B2B, B2G, B2C requirements, which include faster product listing, optimised planogramming, efficient trucking and warehouse management, product recall alert, compliance with statutory labelling/marketing guidelines, license/certificate validation, and need for additional product information to enable consumers (through **Smart Consumer mobile app**) make informed purchase decision.

Brand owners/manufacturers upload their product data directly into DataKart, which is accessed by multiple retailers/e-tailers for managing their product item masters.

Retailers and e-tailers endorse DataKart

Note:

1. User should have an active access to DataKart Platform.
2. Users will receive the password on the registered email with GS1
3. In case you have forget the password, it can be reset by clicking on 'Forgot Password' on the login page. Reset password link will go to the registered E-mail ID.

Step 3) Go to module 'Map SKU number'

The screenshot displays the DataKart dashboard interface. At the top left is the GS1 India logo. The center header features the DataKart logo with the tagline 'Single source of reliable product data'. The top right corner shows the user's account information: 'GS1 India (890600099)'. Below the header is a navigation bar with links for 'Product Data', 'My Account', 'Resources', and 'GST Information'. On the right side of the navigation bar are links for 'Back', 'Logout', and a 'Search' icon. Below the navigation bar, a status bar indicates 'GTIN Allocated: 1000', 'GTIN Utilized: 93', and 'GTIN Remaining: 907'. The main content area contains a grid of 16 modules, each with an icon and a label. The 'Map SKU Number' module, located in the second row, fourth column, is highlighted with a red rectangular box. A large red arrow points from the right towards this module. The other modules in the grid are: Manage Brand Status, Create Product Data, View Product Data, Account Settings, Upload Product Data, Generate & Print Barcodes, Apply Data Access Permissions, Tax Schedule, MDM Updates, Notification Acknowledgement, Cost Margin, Generate Reports, Product Life Cycle, GST Information, and Product Recall.

Module Name	Icon Description
Manage Brand Status	Yellow tag with a hook
Create Product Data	Red box with a white arrow pointing out
View Product Data	Blue box with white horizontal lines
Account Settings	Blue box with a white key
Upload Product Data	Blue box with a white cloud and arrow
Generate & Print Barcodes	Blue box with a white barcode and the number 8900000
Apply Data Access Permissions	Blue box with a white circular arrow and four arrows pointing out
Map SKU Number	Blue box with a white document and arrow
Tax Schedule	Blue box with a white document and arrow
MDM Updates	Blue box with a white document and bar chart
Notification Acknowledgement	Blue box with a white exclamation mark
Cost Margin	Blue box with a white document and bar chart
Generate Reports	Blue box with a white document and bar chart
Product Life Cycle	Blue box with a white circular arrow and a bar chart
GST Information	Blue box with a white circular arrow and the text GST
Product Recall	Blue box with a white circular arrow and the text RECALL

Prerequisites

Once should create product data prior updating CSD Index Number.

3 Download Template and update CSD Index Number

Step 1) Go to tab 'Map CSD Index Number' and click on hyperlink 'Download' to download template.

The screenshot shows a web application interface. At the top, there is a navigation bar with a home icon and links for 'Product Data', 'My Account', 'Resources', and 'GST Information'. On the right side of the navigation bar are links for 'Back', 'Logout', and 'Search'. Below the navigation bar, on the right, there is a status bar showing 'GTIN Allocated: 1000', 'GTIN Utilized: 74', and 'GTIN Remaining: 926'. The main content area has three tabs: 'Map SKU Number', 'Map Article Code', and 'Map CSD Index Number'. The 'Map CSD Index Number' tab is selected and highlighted with a red box, with a red arrow pointing to it from the right. Below the tabs, there is a large white box containing the title 'Map CSD Index' in orange text, preceded by three icons representing documents and a download arrow. Below the title is a blue 'Download' link, which is highlighted with a red box and a red arrow pointing to it from the left. Below the link is the text 'template to provide your internal CSD Index Number against each GTIN.' and 'Once you have filled in the template, upload the file.' At the bottom of the white box, there is a file upload section with a 'Choose file' button, the text 'No file chosen', and an orange 'Upload' button.
